Online Information Review

2 June 2015

Dear Professor XXX:

Puesta en valor del contenido del artículo

I am pleased to submit our original manuscript 'XXX' by XX et al. for consideration for publication as a research article in *Online Information Review*.

We believe this manuscript is suitable for publication as the focus of the research reflects the aims and scope of your journal and the reviewer of a previously submitted paper expressed interest in the line of research it explores.

Our manuscript presents a semi-automatic model for updating controlled vocabularies through the use of a text corpus and the mining of query logs. Today, controlled vocabularies play an important role in information retrieval. Numerous studies have shown that conceptual searches based on vocabularies are more effective than keyword searches, at least in certain contexts. Consequently, new ways must be found to improve controlled vocabularies.

All the authors have approved the manuscript and agree to its submission to *Online Information Review*. Moreover, the manuscript is the authors' original work and has not been published or simultaneously submitted elsewhere.

Originalidad del trabajo y predisposición al copyright
